### **TECHNICAL SUPPORT**

If a problem arises with your system and no solution can be obtained from this user guide, please contact your place of purchase or local dealer.

### **REVISION HISTORY**

V 1.0 December, 2009

---

#### **Note:**

This user guide is designed to provide the user a quick reference for chassis setup. We assume you need the information regarding how to assemble the system, such as Motherboard, CPU, RAM Memory, Hard Drive, DVD ROM, Operating System..., etc. Based on this assumption, we make this user guide of quick installation guide. Please follow the description step by step to install the components. If you have any question in assembling the system, please refer your questions to the appropriate Technical Support of the component vendors.

---

## **Overview**

### **Standard Components Equipped**

- HTPC 1000 & 5000 chassis
- 2 x 60mm silent case fan; 1 x 90mm silent HDD fan
- Front connectors (onboard connectors required)
  - USB 2.0 x 3; IEEE 1394 x 1; HD or AC97 MIC & HeadPhone x 1
  - eSATA x 1; SDHC 2.0 compliance all in one card reader x 1
- Tight cables, screws, installation guide

### **Other Suggested Components**

- Vista Home Premium or Ultimate Operation System
- Micro ATX Motherboard
- ATX Power Supply
- CPU / Quiet Cooler
- Hard Drive (SATA is **recommended**)
- RAM Memory
- Optical Drive (DVD Burner is **recommended**)
- Keyboard with trackball (nMEDIAPC 2.4GHz RF wireless keyboard is **recommended**)

### **Suggested upgrades**

- 20X2 nMEDIAPC programmable LCD module
- Sound Card
- Video Graphic Card (Fanless model is **recommended**)
- TV Tuner Card (MCE certified is **recommended**)

3. Install Optical Drive Bracket back to the case
4. Put the bracket in the slot hole that will hold it in 110 degree angle, connect cables and the power cords for the hard drive and optical drive
5. Lock the bracket
6. Connect power supply cords

## Step 4: Connect Cables

Following your motherboard user guide to:

		<p>Connect Card Reader &amp; USB Ports</p> <ul style="list-style-type: none"> <li>• There are two 10 pins USB connectors. One for the card reader and USB, the other for the other two USB ports</li> <li>• Match the pin label (on connector) and your board user guide USB port layout for accuracy.</li> </ul>
		<p>Connect IEEE 1394 Port</p> <ul style="list-style-type: none"> <li>• There is one 10 pins 1394 connector</li> <li>• Match the pin label (on connector) and your board user guide 1394 port layout for accuracy. (Not all board has onboard 1394 port, leave it unplugged if you don't have it)</li> </ul>
		<p>Connect HD Audio and eSATA Port</p> <ul style="list-style-type: none"> <li>• There is one SATA connector, connect it to your onboard SATA port</li> </ul> <p>Check your board to see if it has HD onboard port that supports HD audio</p> <ul style="list-style-type: none"> <li>• If yes, plug the HD connector to your HD onboard audio port</li> <li>• If no, plug it to your AC 97 chipset onboard audio port using the Y tale connector</li> </ul>
	<ul style="list-style-type: none"> <li>• Connect Power Switch connector to your onboard port</li> <li>• Connect Reset Switch connector to your onboard port</li> <li>• Connect HDD Power Switch connector to your onboard port</li> </ul>	
	<p><b>LCD Module</b></p> <p>If you purchase the LCD programmable module. Simply take off the black label that blocks the LCD window, install it behind the panel. No need to take off the panel, just take out the Optical bracket, you can install the module directly inside the case.</p>	
	<p>Organize the cables with provided cable ties.</p> <p>See picture for reference.</p>	

## **Step 5: Other Component Installation**

For other components, including hard drive connection; RAM; CPU & cooler; optical drive, operating system, video card, sound card, TV tuner card and power supply connection etc., follow the user manuals and motherboard manual instruction.
